- Performs more than 4,400 types of lab tests from routine blood assays to genomic testing
- Operates affiliated Centers of Excellence including the Center of Esoteric Testing, Center for Molecular Biology and Pathology, and the National Genetics Institute

From the President's Desk

Happy New Year From OneNet!

The start of the New Year is traditionally a time to reflect on past accomplishments and to set goals for the year ahead.

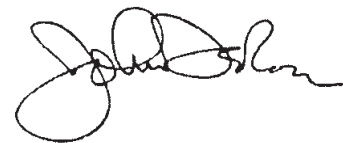

I'm proud of the fact that throughout 2006 OneNet continued to be one of the best PPO networks in the Mid-Atlantic region. Our network grew by more than 5,150 providers this year, and we were once again ranked as the largest PPO network in the Washington Metro Area by the *Washington Business Journal*. Our name change to OneNet PPO is also laying the groundwork for exciting growth to come.

2007 promises to be an outstanding year as we focus on network expansion and strive to bring even greater quality, value and service to our customers. To support our efforts, we brought on a number of new staff with extensive knowledge and expertise in the field of health care. And as most of you probably know, our new arrangement with

Laboratory Corporation of America (LabCorp) means OneNet Participants can now access quality lab services nationwide.

The *New Year* also brings with it some *new* and updated resources for OneNet Payers. We have a *new* printed directory of physicians, health care practitioners and facilities; a *new* customer service manual; and a *new* Provider Download option on our Web site. You can read more about all of these topics throughout this issue of *Outlook*.

I hope that your 2007 is off to a great start. On behalf of the entire staff at OneNet PPO, we wish you a very happy, safe and prosperous New Year!

John DeRosa
President

Changes to OneNet Lab Network Effective 1/1/07

OneNet PPO's roster of participating laboratory service providers changed recently as part of our ongoing commitment to providing access to quality, cost-effective health services.

Effective January 1, 2007, Laboratory Corporation of America (LabCorp) became OneNet PPO's preferred national laboratory services provider. LabCorp is one of the world's largest clinical laboratory providers, and offers significantly discounted rates to OneNet Participants on a full

spectrum of laboratory tests. Through our new agreement, OneNet Participants can now access LabCorp services at patient centers in both the Mid-Atlantic and nationwide.

Also effective January 1, 2007, Quest Diagnostics is no longer a laboratory services provider for OneNet PPO. As always, our network will continue to include a growing number of local and regional laboratory services providers, and this change will not create any significant gaps in

(continued on other side)

a year of growth!

The OneNet PPO network added more than 6,500 physician offices, facilities and hospitals across our service area in 2006.

Participating Physicians and Health Care Practitioners, Main Office Only:

59,635	January 2007

2,677	January 2007
2,462	January 2006
215	Growth

Our current service area includes: Delaware, District of Columbia, Maryland, North Carolina, Virginia, West Virginia and portions of Pennsylvania

Changes to OneNet Lab Network Effective 1/1/07 (continued)

laboratory access for Participants or Providers.

To find all of our participating lab centers, Participants can search the online directory at www.onenetppo.com. For a listing of just the LabCorp Patient Service

Centers, follow the link from our home page, go directly to the LabCorp Web site at www.labcorp.com, or call LabCorp's automated lab locator at 1-800-LabCorp.

Now Available: New OneNet Printed Directories

New printed directories of OneNet participating physicians, health care practitioners and facilities are now available!

The new directories are available in three different versions for different geographic areas and products: OneNet PPO and MAPSI Behavioral Health providers for North Carolina; OneNet PPO and MAPSI Behavioral Health providers for all other regions in our service area; and just OneNet PPO providers for all other regions of our service area.

A directory listing OneNet PPO and MAPSI providers for all parts of our

service area will also soon be available on CD-ROM in PDF format.

Printed directories or CD-ROM directories can be ordered by completing and submitting the Printed Materials sheet in the Forms section of our Web site, or through a written request to your account manager.

Directory listings are subject to change, and Participants are encouraged to use our online directory at www.onenetppo.com, or call OneNet member services at 1-800-342-3289, for the most up-to-date list of participating providers.

New Provider Download Option

OneNet's Provider Download* is available online in a new user-friendly format designed to make updating your systems with provider data easier and more accurate.

The new format option consists of five database files, each containing a portion of a provider's complete information. One file contains physician names and degrees, while additional files hold National Provider Identifiers, addresses and other data. This multiple file format helps eliminate duplicate records and reduces overall file size.

The Provider Download is available as a full listing of all provider

records, or as an abridged list of just those records that changed in the previous 30 days. Full listing reports are generated on the 1st and 15th of each month; changes-only reports are available on the 15th of each month.

For more information on the new Provider Download option, visit our Web site at www.onenetppo.com and click on the Provider Download link in the Payer section. The original Provider Download format will continue to be available on our Web site until 2008.

* The provider download is not a directory and contains all network practitioners including hospital-based physicians and specialists

New 2007 Customer Service Manual

Be on the lookout for OneNet's 2007 Customer Service Manual. The revised manual includes important contact names, phone numbers and claims addresses, as well as updated information on network resources and procedures for using OneNet services.

Copies will be mailed out soon and will be available in PDF format on our Web site to Payers with online administrator access. Call your account manager for a copy if you do not have access to our site.
